Fusebox

Website

FLIP

KEEP IT SIMPLE!!!! KISS (Keep it Simple Silly)

have something like [www.houseoffusion.com](http://www.houseoffusion.com) for fusebox

## entation

- How to get started <http://john.beynon.org.uk/learnfb> FB4
- Other language docs Mike Ritchie has Fusebox 5.0 for PHP in the works.
- Certification
- Upgrading document
- Books - Jeff Peters FB 5
- Translating into other (human) language
- Articles. Case Studies. Specifics (all for documentation).

## g

better open licence

Apache 2.0?

Continue to be free

Currently Apache Source License 1.0 so, yes, it is open source.

## ing

trac

[trac.fuseboxframework.org](http://trac.fuseboxframework.org)

trac has a wiki+bugtrack for 1 project at a time

Wiki

## envolvement

- Active list
  - Fix fusetalk so that it supports email (in and out)
  - Coelesce all list-servs together.
  - as well as the forums so that all the talk is availabe in one place instead of being scattered.
  - beta list 400 people on the FB5 list!!
- Events
  - West
  - NYC
  - Framework conference <http://www.frameworksconference.com/>
- User group
- Plugin and Lexicon repositories [exchange.fuseboxframework.org](http://exchange.fuseboxframework.org)
- todo list
  - who is working on what trac should be able to do that (to do lists)
  - roles/responsibilities list
  - Go to a contributor/committer scenario
  - Trac supports several version of "tickets" defects enhancment and tasks. tasks can be the todo items. But the wiki can be used to manage the Roles peices.
